We suggest that students should also set aside in the region of £500 to cover text books across the three years of the course. We will advise you which books will be the best to purchase as they will need to be useful to you even after graduation. Our college library contains many other books on the subjects we teach, for you to use whilst within our library.

When you start to work in the clinic in the third year you will need to purchase a starter kit containing the basic equipment you will need as a practitioner. We will give you a list of what is required. You may buy these items individually, or some suppliers offer a student discount or a group discount for you to order with your classmates. The starter kit will cost in the region of £150.

Full terms and conditions may be found on our application form, which is available on our website.
